

SUMMARY

Software Engineering student proficient in C, Java, and Python. Skilled in MERN stack, Git/GitHub, and OS (Linux, Windows). Completed coursework in Object-Oriented Design and Data Structures, with expertise in MySQL. Strong problem-solving and teamwork skills. Top-30 in DIU's Competitive Programming Contest. Recognized for organizing 12th-year anniversary event. Eager to contribute to innovative projects.

EDUCATION

Daffodil International University

Current students of B.Sc in Software Engineering

Current SGPA : 3.83 out of 4.00

Joypurhat Goverment College, Joypurhat

Higher Secondary Certificate

GPA : 5.00 out of 5.00

R.B. Govt. High School, Joypurhat

Secondary School Certificate

Current SGPA : 5.00 out of 5.00

R.B. Govt. High School, Joypurhat

Junior School Certificate

Current SGPA : 5.00 out of 5.00

SKILLS

- **Programming Languages:** Proficient in C, Java, and Python
- **Web Development:** Competent in the MERN Stack (MongoDB, Express.js, React, Node.js)
- **Version Control:** Proficient in using Git and GitHub
- **Operating Systems:** Experienced with Linux and Windows environments
- **Object-Oriented Design:** Completed coursework demonstrating understanding and application
- **Data Structures and Algorithms:** Completed coursework emphasizing proficiency
- **Database Management:** Familiarity with MySQL database management
- **Software Development Tools:** Proficient in using Git and GitHub for collaborative software development

- **Problem Solving:** Demonstrates strong analytical and problem-solving skills
- **Team Collaboration:** Proven ability to work effectively in a team environment
- **Continuous Learning:** Exhibits a commitment to ongoing learning and adaptation to new technologies

ACHIEVEMENTS

- **DIU Scholarship:** Got 90% tuition fee waiver in Daffodil International University based on SSC & HSC result
- **CPC :** Secured a top-30 position in the intra-university Competitive Programming Contest at DIU
- **Award :** Awarded for successfully organizing the 12th-year anniversary of Software Engineering at DIU

PROJECTS

- **Syncmates** - Social Media for Students Developed a student-centric social media platform facilitating the sharing and discovery of course tutorials.
- **World-Tour** - Front-end API Enhancement Contributed to a front-end project aimed at enhancing API utilization for a global tour website.
- **B8A3-Fruit-Burst** - Front-end Web Development Implemented a front-end project using raw HTML and CSS for an engaging user interface.
- **FiniteAi** - Command Line Tool for Daily Activities Developed a command-line-based project in C language to assist with daily activities and reminders.
